Welcome to one of India's leading finance and accounting institute that has been providing the best training for all those aspiring for a career in finance. The accounting profession is the need of every type of business organization. Understanding this importance we train our students as per industry demands and are moulded as per the technological advancements in the job market. Every business establishment requires an accounts professional.

Apart from the full-time job this profession can be taken as a part-time accounts job. We know that theoretical knowledge is not enough to work in any organization. Keeping this in mind we have developed an exclusive technique for training in a very brief span of time. We have already proved our mettle in the market as a key confidante, powerful institution and a mentor to the ambitious candidates. Here our students are taught the current practices in the field of accounting and taxation. Our courses have been specially designed for those who wish to work as a professional accountant.

Our Mission

To develop and implement the best instructional practices, and support the scholarly and artistic activity of students during their transformation to a professional.

Our vision

To be the most favoured and trusted institute of accounting by the nature of training. We offer to set a benchmark of perfection in this field.
